EDUCATION

Queen's University

BASc Computer Engineering

Kingston, ON

September 2021 – May 2026

- **Relevant Courses:** Data Structures & Algorithms, Distributed Systems, Operating Systems, Computer Networks, Databases, Machine Learning, Cryptography & Network Security.

PROFESSIONAL EXPERIENCE

Queen's University IT Services

Web Developer

Remote

September 2025 – Present

- Returned post-internship to support a high-priority Cybersecurity Hub initiative serving students, faculty, and staff
- Defined site architecture, navigation flows, and user experiences for a multi-audience SharePoint platform
- Built SPFx components using React and TypeScript to implement secure role-based redirects and navigation features

Queen's University IT Services

Project Management Intern

Kingston, ON

May 2024 – August 2025

- Led development of an automated operating-plan intake system across multiple departments, reducing processing time from 2–3 months to under 4 weeks
- Built executive Power BI dashboards providing visibility into 300+ projects through forecasting, overdue alerts, and stakeholder reporting
- Contributed to Agile delivery cycles including requirements gathering, implementation, testing, and stakeholder review
- Collaborated with cross-functional teams to improve adoption of internal tools and delivery workflows

PROJECTS & OUTSIDE EXPERIENCE

Wats Next?

Full Stack Developer

Remote

January 2026 – March 2026

- Built a full-stack AI application using FastAPI, React, and PostgreSQL that converts meeting transcripts into structured action items
- Designed reconciliation workflows to track task updates across meetings and improve consistency of AI-generated outputs
- Developed REST APIs and integrated LLM pipelines with testing architecture to improve reliability and reduce operational costs

[RN Sync](#), Capstone Project

Mobile App Developer

Kingston, ON

September 2025– March 2026

- Built a React Native mobile application integrating real-time ICU sensor data through event-driven architecture
- Developed backend services using Node.js, Python, AWS Lambda, Docker, and REST APIs
- Implemented asynchronous communication and WebSocket-based data streams to validate end-to-end reliability

ACTIVITIES & LEADERSHIP

Queen's Black Tech

Director of Finance

Kingston, ON

September 2025 – April 2026

MENAQ

Outreach Director

Kingston, ON

September 2025 – April 2026

Queen's Hyperloop Design Team

Technical Engineer

Kingston, ON

September 2023 – April 2024

Intramural

Staff Supervisor

Kingston, ON

September 2023 – April 2026

Queen's Varsity Rugby Club

Player

Kingston, ON

September 2022 – April 2024
